EDUCATION

- 2022 - 2026
- DR. AMBEDKAR INSTITUTE OF TECHNOLOGY
- Information Science and Engineering
- CGPA: 7.73
- (Aggregate of 6 Semesters)

- 2020 - 2022
- THE PRESIDENCY PU COLLEGE
- PCMB (KSEEB)
- Per: 89.17%

- 2019 - 2020
- THE PRESIDENCY PUBLIC SCHOOL
- 10th (ICSE)
- Per: 88.83%

SKILLS

- Java, C++
- React, Django
- MySQL, MongoDB, Firebase
- SDLC & OOPs Concept
- Teamwork & Leadership
- Effective Communication
- Problem Solving

CERTIFICATES

- Generative AI Course by GeeksforGeeks
- AI Internship Course Certificate by LearnNex

LANGUAGES

- English
- Kannada

SUMMARY

Proactive Information Science Engineering student seeking a Software Engineer role with a strong foundation in Data Structures, Algorithms, and OOPs concepts. Proficient in Java and C++, with hands-on experience building full-stack applications, such as Veloria-AI, a patient recovery app. Eager to apply robust problem-solving skills to contribute to innovative software development.

PROJECTS

- Veloria-AI

Mobile Application

Technologies: React Native, Django, Firebase

April, 2025

 - Engineered a full-stack patient recovery application during the COLOSSUS 2.0 Hackathon to establish a seamless connection between doctors and patients post-surgery.
 - Designed and integrated an AI module for wound analysis to assess healing progress from user-uploaded images, providing data-driven feedback to doctors and patients.
 - Developed an interactive chatbot to answer common patient queries and integrated a library of rehabilitation videos to improve user engagement and support.
- Krishi-Mitra

Mobile Application

Technologies: React Native, Firebase, CNN

May, 2025 - Aug, 2025

 - Developed an interactive application to help farmers identify and diagnose plant diseases through image analysis.
 - Integrated a data aggregation module to provide farmers with real-time market prices, personalized crop recommendations, and information on relevant government schemes.
 - Implemented an interactive chatbot to provide farmers with instant information on crop management, pest control, and market conditions.

ACHIEVEMENTS

COLOSSUS 2.0	GeeksforGeeks
24-Hrs Hackathon	DSA Problems
Participated in the COLOSSUS 2.0 hackathon by developing Veloria-AI a real-time post-surgery recovery app, applying practical software development skills to a complex healthcare challenge.	Demonstrated a strong command of core programming concepts by actively solving 100+ Data Structures and Algorithms problems on the GeeksforGeeks platform.
